About me

I am currently a sophomore pursuing my Undergraduate degree in Computer Science and Engineering at NIT Rourkela. I am a tech enthusiast and an extremely curious person. I find pleasure in solving problems and reading books and am also a journalist for Monday Morning, the official media body of NITR and the second largest of its kind in the nation. My interests lean towards Web development, App development, Machine learning and Cloud computing. If given an opportunity, I am also willing to explore other areas of Computer Science.

Skills

Python
